- ☎ +44 (0)203 070 0106
- ✉ appointments@fortiusclinic.com

This line is open Monday to Friday 8:00am to 8:00pm.

Refer a patient via our online referrer form at

- 🌐 fortiusclinic.com/fortius/health-professionals

fortiusclinic

World Class Care, First Class Service

The Fortius Group is the UK's leading private orthopaedic and sports injury group. It was founded in London by a group of leading Orthopaedic Surgeons and Radiologists, with a shared vision of building a worldwide centre of excellence in musculoskeletal care.

Their vision was to create a clinic that would bring together the country's leading experts in orthopaedics and sports injury treatment, with a shared commitment to advancing the science of medicine and a better patient experience.

The group now includes over 100 leading specialists, three outpatient and diagnostic clinics, Fortius Surgical Centre and Fortius Joint Replacement Centre at Cromwell Hospital.

Our services

- Consulting in orthopaedics, rheumatology, sports and exercise medicine, radiology and pain management.
- In-house radiology facilities including digital X-ray, ultrasound, MRI scanners and interventional radiology services as well as other diagnostic and therapeutic procedures.
- Nursing for a wide range of treatments associated with musculoskeletal conditions.
- Specialist biomechanical and gait analysis services.
- Orthopaedic surgery including joint replacement and spinal procedures.

About Fortius consultants

Our consultants provide care for a wide spectrum of patients, from high performance and recreational athletes with sports injuries, to patients experiencing arthritis, rheumatology, musculoskeletal conditions, chronic pain and fatigue syndromes. We ensure that treatments are based on the latest evidence and research, using the most up-to-date procedures and techniques. Every Fortius patient can be confident that they will receive the highest level of care and treatment.

Our consultants hold regular sub-specialty team meetings to discuss complex cases and decide on the most effective course of treatment. At Fortius, all of our consultants ensure surgery is a last resort.

Sports medicine

Fortius Clinic takes care of more elite athletes than any other provider in Europe, and many of our specialists hold clinical roles in sport. We look after the UK's premier football and rugby clubs and are proud to be one of the few centres in Europe accredited by FIFA as a Medical Centre of Excellence. We are an active partner with the Rugby Players Association and the official 'Health and Wellbeing Partner' for AFC Wimbledon.

Outstanding care and innovation

Fortius is rated 'Outstanding' by the Care Quality Commission, a reflection of the enormous dedication and compassion that we treat all patients with. The report praised our open culture, and holistic compassionate care.

Enabling excellence

Fortius Clinic is committed to providing education in orthopaedics and sports medicine. We host a varied annual programme of webinars, events and training for GPs and physiotherapists. Our bi-annual International Sports Injury Conference is aimed at all medical professionals working in sports injury medicine and brings together the latest thinking and evidence in athlete management.

To be the first to hear about our events, you can sign up to our mailing list. Visit our website fortiusclinic.com or email marketing@fortiusclinic.com
